

TASTE

Delicious flavors that please taste buds

More convenient and versatile

Great between meals or anytime

Singles now available at food, drug, and retail stores

Satisfied patients are compliant patients

RECLOSABLE BOTTLES

CONVENIENCE

AFFORDABILITY

COMPLIANCE

It's easier for patients to comply when you recommend Ensure® products. The variety of delicious flavors is hard to resist! Plus, you're opening the door to increase consumption and decrease waste with the convenient, reclosable bottles. It's a great way to get protein, energy, and 24 essential vitamins and minerals into your patients' diets.

And now your patients can get complete, balanced nutrition and taste in single-serving sizes, too. Homemade Vanilla and Creamy Milk Chocolate flavors of Ensure are available in single-serving bottles. Available at food, drug, and retail stores, Ensure is a great tasting way to meet the nutrient needs of your patients.

GREAT NUTRITION WITH GREAT TASTE.

COMPLIANCE COUNTS

A compliant patient is a nourished patient. Build compliance by recommending convenient, great-tasting Ensure®.

What other Health Care Professionals are saying about Ensure:

COMPLIANCE COUNTS

"It is **easier to drink** Ensure out of the bottle than it is a can. With a can many times a straw is needed. It is **easier to maneuver** an Ensure bottle than a can or Ensure poured in a glass. Recapping the Ensure bottle is a plus!"

Sharon Robinson, RD, LD: Hillcrest Specialty Hospital, Tulsa, OK

"Switching from a can to a bottle has benefited the patients and our nutrition and nursing staff in a number of ways. The twist-off top allows for **simple mixing of food modules and thickeners**. The easy grip on the bottle makes it **easier for patients to consume** the shake. Plus, patients don't feel as much pressure to finish the bottle as they did with the can. The cap can be placed back on to **maintain its freshness and flavor.**"

Andrea McHugh, MA, RD, LDN: Crozer-Chester Medical Center, Upland, PA

"My **patients and staff have reported** the following benefits of the Ensure bottle to me over the last 12 months:

- **It tastes better**
- **It fits better on the patient tray and is easier to open**
- **There is less waste thanks to the screw-on cap."**

Victoria Carriger, RD: Tulane District Hospital, Tulane, CA

"One of the greatest advantages of the Ensure Plus® reclosable bottle has been an increase in consumption. Patients have reported a less "metallic taste" and **love the idea** of being able to drink the supplement throughout the morning or afternoon by **simply reclosing the bottle.**"

Jocelyne Nossier, MPH, RD, CNSD, LDN: Caritas Carney Hospital, Boston, MA
