The first day is your first day. Every day in the hospital is a FIRST day.

specialized

First in flexibility and safety.

Our liquid formulas eliminate the need for most powder mixing.

Similac® Special Care™ Liqui-Mix™ System

Recipes for various formula concentrations using the Similac Special Care Liqui-Mix System

To Prepare:	Mix the Following:
26 Cal/fl oz formula	2 parts SSC w/iron 24 + 1 part SSC w/iron 30
27 Cal/fl oz formula	1 part SSC w/iron 24 + 1 part SSC w/iron 30
28 Cal/fl oz formula ¹	1 part SSC w/iron 24 + 2 parts SSC w/iron 30

EXAMPLE: To make 1 fl oz of 26 Cal/Fl oz formula, mix approx. 10 mL of SSC w/iron 24 and 20 mL of SSC w/iron 30. For more precise measurements, use a 100-mL syringe.

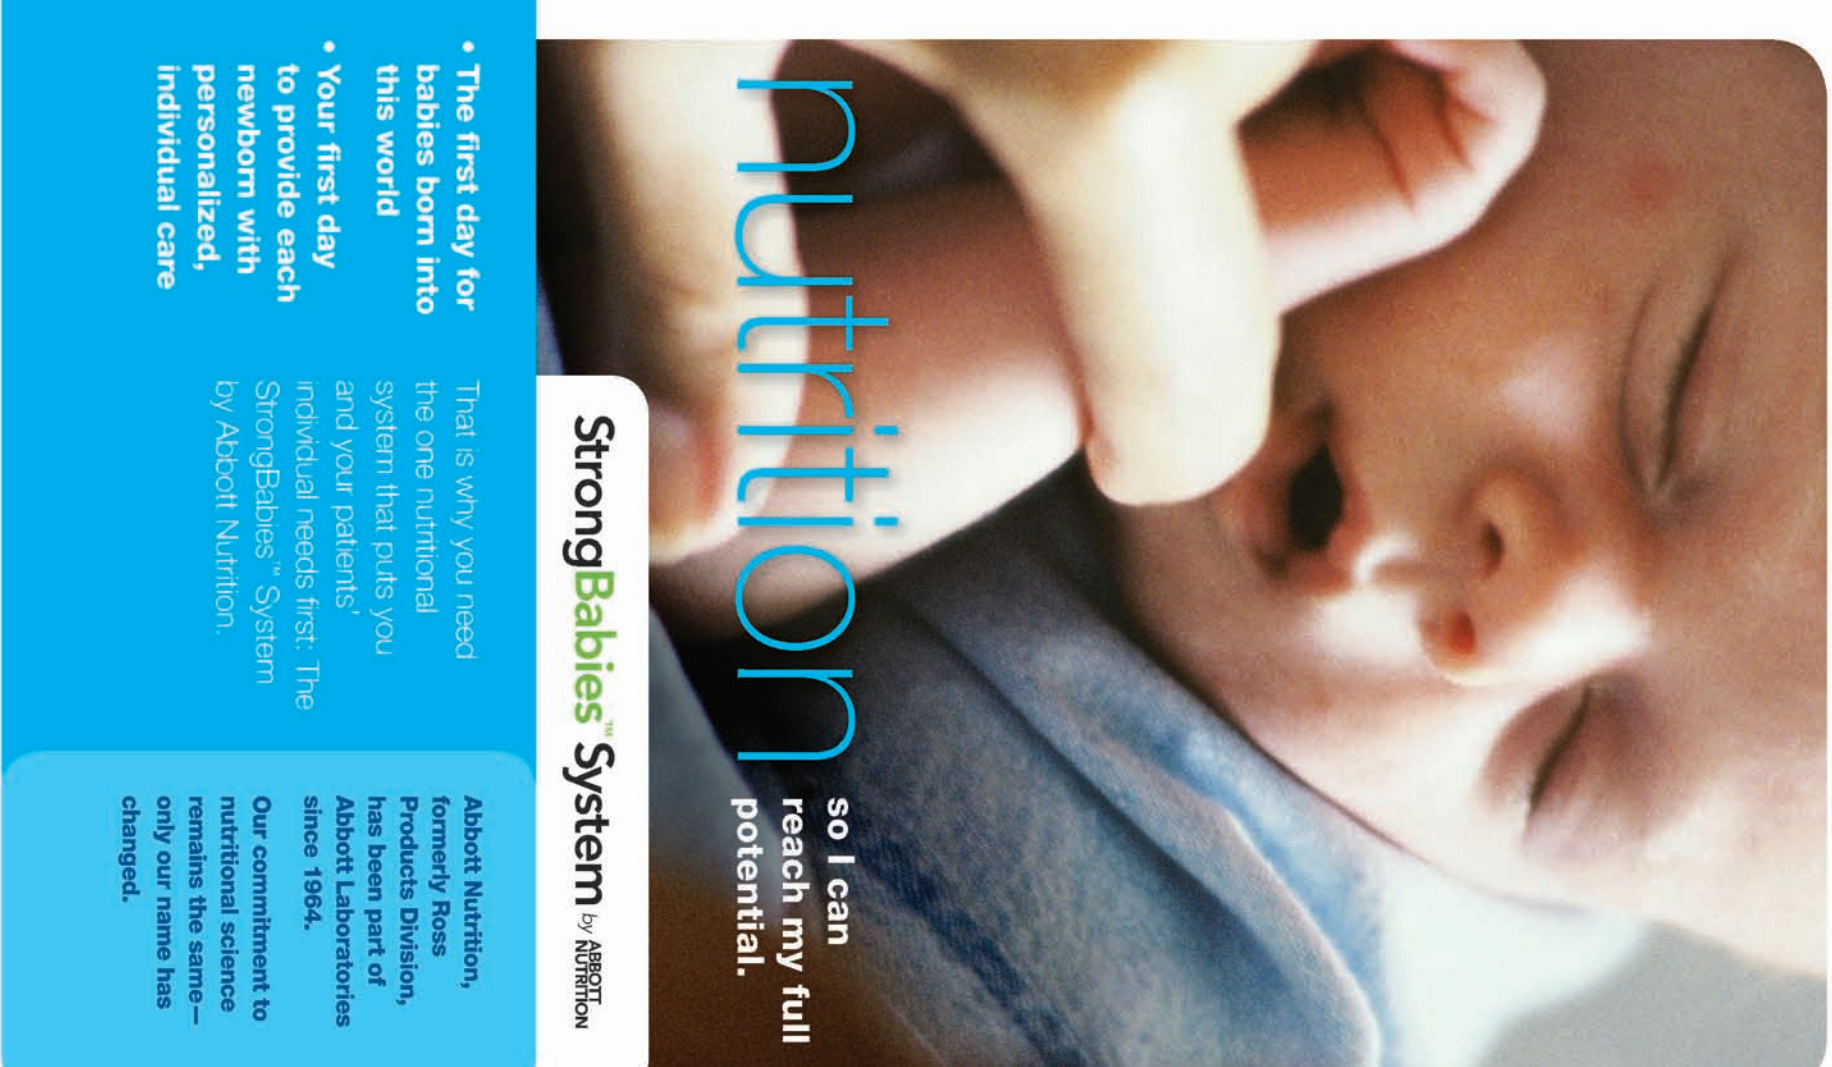

Measure liquid formulas as if all weights can vary.

For safe, simple delivery of high-calorie, nutrient-dense formula.

Nutritional supplement Provides excellent weight, length and head circumference gains.² Preserves the antibacterial activity of breast milk against E. coli, Staph, CBS and E. sakazakii.^{3,4}

10% extra protein to support growth especially for very-low-birth-weight infants (less than 1500 g).^{5,6}

The first and only 30 calorie per fl oz liquid formula. Suitable as a human milk fortifier.

The first day for babies born into this world. Your first day to provide each newborn with personalized, individual care.

nutrition

so I can reach my full potential.

Abbott Nutrition, formerly Ross Products Division, has been part of Abbott Laboratories since 1964. Our commitment to nutritional science remains the same—only our name has changed.

StrongBabies™ System by Abbott

That's why you need the one nutritional system that puts you and your patients' individual needs first. The StrongBabies™ System by Abbott Nutrition.

The most comprehensive system for specialized nutrition.

First in NICU innovations. Babies in the NICU need your extraordinary care. The StrongBabies™ System by Abbott Nutrition helps you support optimal growth in your patients.

Look to us first for innovations. Our goal is to help babies thrive. Our commitment is to advancing the science of nutrition and creating formulas that perform more like breast milk. And while we have a long history of firsts, you can count on us to continue to offer the latest innovations.

Babies' needs come first.

From breastfeeding support to our advanced infant formulas, the StrongBabies™ System by Abbott Nutrition is designed to allow you to optimize nutrition for most needs.

The system offers:

- Exceptional breastfeeding support and materials for parents and educational opportunities for health care professionals.
- Complete line of infant formulas and feeding support.
- A history of excellence and dedication to nutritional innovation.

Give them a strong start. Recommend Similac Advance EarlyShield™ upon discharge.

my all because every day is a FIRST day.

StrongBabies™ System by Abbott

Families look to you first. To provide the best care, you need the best support. Abbott Nutrition is dedicated to providing you with a comprehensive system, educational opportunities and products to help you give infants the strongest start possible.

Our exclusive Similac Advance EarlyShield blend has: Prebiotics Can stimulate the growth of beneficial bacteria in the GI tract.¹ Nucleotides A unique blend and level for immune support.^{2,3} Antioxidants Help protect the eyes and skin.

Make every FIRST day the best day possible.

Give them a strong start. Recommend Similac Advance EarlyShield™ upon discharge.
